

## REMEMBERING SEPTEMBER 11, 2001

Few of us will ever forget where we were or what we were doing ten years ago when we woke to the fact that our nation was suddenly and viciously attacked by terrorists bent on extinguishing our way of life. Now, after a decade, our way of life has continued despite the best efforts of those who are intent on destroying it. This is truly a testament to the strength of America and the strength of her people.

This weekend, we all will take some time to remember those who perished on that tragic day in September, the many that rushed headlong into peril to give aid to the endangered and injured, and keep the families that still suffer in mind. However, we also should remember how our nation responded that day and th
